

CHARLOTTE HALL SCHOOL

There is a box of subject files, a box of photographs, and a herbarium that appears to have been done by a student at the school. The files include clippings about the school, folders on the Dent family, who were connected with the school from its inception, material about Rodman Coad's attempts to raise money for the school during the middle 1970s, and a copy of the Sentinel for 1948. Several school catalogs and books of Board minutes are in the Research Center. [**1971.001+** This collection is completely described.]
